

PAINTING THE STARS

Science, Religion and an Evolving Faith

*“When I have a terrible need of – dare I say, 'religion'? –
then I go outside at night and paint the stars.”* Vincent Van Gogh

Celebrating the communion of science and faith, *Painting the Stars* explores the promise of evolutionary Christian spirituality. The 7-session series features DVD's of over a dozen leading theologians and progressive thinkers. Each session includes conversation around the assigned readings, a video presentation and guided discussion. Open to those curious about their faith and eager to delve more deeply.

“A superb series for everyone, Christians and doubters. We were all richly challenged and left each session wishing for more. A must for your calendar.”
